Hamza Naqvi

Full-Stack Software Engineer | React, Node.js, Supabase, WordPress

Lahore, Pakistan (Remote, works US hours) | +92 317 4227657 | hamzanaqvi069@gmail.com | linkedin.com/in/hamza-naqvi-299449215 | hamzanaqvi.netlify.app

SUMMARY

Full-stack engineer with 5+ years of production work for companies in the US, UK, Singapore and the UAE. Built a multi-tenant CRM on React and Supabase with 834 automated tests, an AI assistant that answers UK crypto tax questions with HMRC citations, and more than 200 client websites. Owns features end to end, from database schema to deploy, and works async across time zones.

SKILLS

- **Languages:** JavaScript (ES6+), PHP, SQL, HTML5, CSS3
- **Frontend:** React, Vite, responsive and mobile-first UI, Bootstrap, Figma
- **Backend and data:** Node.js, REST APIs, PostgreSQL, Supabase (Auth, Row Level Security), third-party API integration
- **Platforms:** WordPress (custom themes and plugins), Elementor, Shopify, WooCommerce, FlutterFlow
- **DevOps and testing:** Git, GitHub, Netlify, Docker, Playwright, cPanel, Hostinger
- **AI and automation:** OpenAI and Anthropic APIs, OpenRouter, n8n, AI agents, web scraping (Apify)

EXPERIENCE

Senior Software Engineer (part-time contract) | Tech Goes Global, United States (Remote) | Dec 2025 – Present

- Building the company's Shopify store together with a Node.js backend and a React dashboard that reads live store data.
- Automate repetitive website tasks and handle technical SEO for the main site.

IT Operations, Web and Digital Marketing Manager | Crypto Accountants, United Kingdom (Remote) | Jul 2025 – Present

- Built and maintain the firm's web platform: main site, community forum, training academy and ALI, an AI assistant for crypto tax questions.
- ALI answers UK crypto tax questions by quoting the relevant HMRC Cryptoassets Manual section with a link to the source page; it also reads uploaded PDFs, summarises cases and drafts replies.
- Run hosting, security and uptime for all sites; lead technical SEO and link building for the firm's core search terms.
- Build marketing automations and AI agents used by the internal team.

Senior Web Developer | Jome Journey, Singapore (Remote) | Jul 2023 – Present

- Build marketing sites and Google Ads landing pages for Singapore residential launches, delivered as modular Elementor sections with scoped CSS so pages never clash with the theme.
- Rebuilt an enquiry site after its earlier version was suspended by Google Ads, writing every section to ad policy (developer disclaimer, no unverified prices or availability claims).
- Add FAQ structured data and test every page at desktop, tablet and mobile widths before handover.

Freelance Full-Stack and WordPress Developer | Remote | Sep 2020 – Present

- Delivered 200+ websites for clients in the US, UK, Canada, Singapore and the UAE: custom themes and plugins, WooCommerce and Shopify stores, speed fixes and hosting migrations.
- Built a WordPress theme with 33 custom Elementor widgets, 20 one-click demo sites, an HTML-to-Elementor converter and a lead inbox with CSV export and webhooks.

Earlier roles: WordPress Developer, Strategic Investments LLC, UAE (Remote), Jul 2023 – Nov 2023 | WordPress Developer, Digicon Valley, Lahore, Jan 2023 – Aug 2023 | Sales Specialist, Corcel, Lahore, Feb 2022 – Dec 2022

SELECTED PROJECTS

RENXW CRM | Co-founder and technical lead | React, Vite, Supabase, PostgreSQL, Netlify

- Multi-tenant CRM for digital agencies covering leads, sales pipeline, onboarding, projects, client portal and reporting.
- 16 screens on 86 tables across 32 migrations; 15 roles and 88 permissions enforced with Postgres Row Level Security.
- 834 passing automated tests plus 425 tenant-isolation checks that confirm one agency can never read another's data.

ALI, AI assistant for crypto accounting | cryptoaccountants.ai/chat

- Answers UK crypto tax questions with the exact HMRC manual reference and source link; reads PDFs and drafts client replies.

EDUCATION

BS Software Engineering | The University of Lahore, Pakistan | 2019 – 2023
